

Interim Placement Update for the Batch of 2024–26

Unaudited Data

This is a preliminary summary of the final placement outcomes for the Batch of 2024–26.

The figures presented are **unaudited** and **as of the date**. They are subject to revision upon completion of the formal audit process. This interim disclosure is intended to provide as-of-date visibility into the placement process and to reduce the scope for partial or delayed interpretation of outcomes.

The audited Final Placement Report will be released by Sept/Oct 2026 (last year it was released in November 2025).

At this stage:

- The data includes **students who have accepted offers**.
- Students who are **still participating in the placement process are not included** in the final outcome metrics.

A total of **405 offers** have been received so far across the PGPM and PGPM-HR cohorts, including PPOs and campus offers; the details are presented in the table below.

1. Classification of Students, Offers and Companies

3. CTC Details (INR)

CTC details have been computed only based on the number of students placed (i.e. 387), excluding second offers and offers revoked.

Programme	Details	Minimum	Maximum	Median	Mean
PGPM/ MBA (for 357 offers)	CTC including ESOPs ¹	9,00,000	44,98,040	16,75,000	18,00,374
	CTC excluding ESOPs	9,00,000	33,12,000	16,75,000	17,49,784
PGPM-HR / MBA-HR (for 30 offers)	CTC ²	10,00,000	20,00,000	14,50,000	15,18,315

1 - 23 out of 357(PGPM/MBA) offers included ESOPs.

2 - There are no ESOPs.

As the corresponding joining letters (with CTC breakup) were not available at the time of the interim report, the CTC figures for certain companies have been considered based on previous years' data.

Further details, including audited and complete placement outcomes, will be shared in the Final Placement Report.

Placement outcomes are computed for each graduating cohort and include all students of that batch, irrespective of participation in international exchange programs. Students undertaking international exchange (e.g., in Term VI) are counted within their respective batch.
