Dear Sir/Madam

I am to refer to your Request for Information under RTI Act 2005, received vide letter dated 07/10/2021 and to say that *the reply is given below;*

Reference is drawn to Section 2 (f) the RTI Act which stipulates:

“information” means any material in any form, including records, documents, memos, e-mails, opinions, advices, press releases, circulars, orders, logbooks, contracts, report, papers, samples, models, data material held in any electronic form and information relating to any private body which can be accessed by a public authority under any other law for the time being in force.”

Further, a reference can also be made to the relevant extract of Section 2 (j) of the RTI Act, 2005 which reads as under:

“(j) right to information” means the right to information accessible under this Act which is held by or under the control of any public authority and includes ”

Furthermore, the Hon'ble Supreme Court of India in Khanapuram Gandaiah Vs. Administrative Officer and Ors. Special Leave Petition (Civil) No.34868 OF 2009 (Decided on January 4, 2010) had held as under:

6. “....Under the RTI Act “information” is defined under Section 2(f) which provides: “information” means any material in any form, including records, documents, memos, e-mails, opinions, advices, press releases, circulars, orders, logbooks, contracts, report, papers, samples, models, data material held in any electronic form and information relating to any private body which can be accessed by a public authority under any other law for the time being in force.”

This definition shows that an applicant under Section 6 of the RTI Act can get any information which is already in existence and accessible to the public authority under law. Of course, under the RTI Act an applicant is entitled to get copy of the opinions, advices, circulars, orders, etc., but he cannot ask for any information as to why such opinions, advices, circulars, orders, etc. have been passed.”

7. “....the Public Information Officer is not supposed to have any material which is not before him; or any information he could have obtained under law.

Therefore, CPIO is not supposed to create information or to interpret the information or to solve the problems raised by the RTI applicant or to furnish replies to Legal implications of the questions or to cull out information from some documents and give such extracted information as sought in this RTI.

The information sought under point number 1 to 4 of the RTI application is not exclusive in nature rather it is non exhaustive and not part of the record of IIM Tiruchirappalli and nor conform section 2 (f) of the RTI Act, hence nil information may be recorded..

In case, you want to go for an appeal in connection with the information provided, you may appeal to the Appellate Authority indicated below within *thirty days* from the date of receipt of this letter.
