Reference to Tender	Queries raised by the Bidders through Pre Bid Clarifications	Decision of IIMT
Page No. 3 and Point No 1 (a) of Scope of Work	Enterprise-grade SSD's generally comes in 480GB SSD as the standard capacity in the market. Will 480GB enterprise SSD drive be enough? As 500GB drives are generally desktop class drives which we do not prefer for long term usage.	The storage should be 960 GB or above (ie. increased from 500 to 960). The SSD drive should be of enterprise grade.
