

CORRIGENDUM-II

for

Tender Notification No.: 23SP060; Dated 08/05/2023

Notice Inviting Tender For Providing Web Hosting Plan (Physical Managed Dedicated Server) to IIM Tiruchirappalli for a Period of 05 (Five) Years.

Corrigendum to the tender document

1. This is in reference to the above-mentioned tender:

Queries raised by the bidder	Corrigendum
<p>The bandwidth allocation will be 30Mbps committed monthly bandwidth on 100mbit port however the bandwidth usage can be scaled upto 100Mbps without any hindrances. Please note that the average monthly bandwidth usage over 30Mbps will be considered as an overage and will be chargeable for each additional 1Mbps overage.</p> <p>Even though we provide Bandwidth from multiple ISP providers, on the rarest scenario there can be an uncertainty which depends on ISP providers as they may schedule maintenances or rare packet losses due to ISP's backbone issues or causes due to unpredictable and unavoidable situations like natural calamities/riots/ acts of any governmental body, war, insurrection, sabotage, embargo, fire, flood, strike or other labor disturbance. Hence most of the ISP providers can assure 99.5% Network uptime at the most.</p>	<p>30 Mbps dedicated bandwidth should be guaranteed during the entire contract period. There should not be any monthly limit as well. Shared bandwidth will not be accepted. Any additional cost will not be paid for this minimum requirement. Considering the unpredictable situations like natural calamities 99.5 % uptime should be guaranteed as per industry standards.</p>
<p>Bandwidth upgrade of 1Gbps upto 20 days in a year will be subjected to Bandwidth overage as per the additional usage over the 30Mbps allocation requested in configuration. During the corresponding month when the request for Bandwidth upgrade to 1Gbps is made, if the Bandwidth usage (computed on 95 percentile calculation) comes greater than 30Mbps, client will be liable to pay additional overage charges for each additional 1Mbps overage. The Bandwidth upgrade request needs to be informed at least 2 days prior to the required result publishing date.</p>	<p>We would intimate the extra usage period at least 2 days in advance. The cost involved for this additional usage should be included in the total cost quoted in the tender. Any additional payment will nor be released for the same.</p>

Note: If the institute increase any resources other than that mentioned in the tender and in above clause #1 & 2 of the corrigendum - I, then the payment for the same will be released as per the prevailing market rate(only if the same is necessary for the smooth loading of the website)

All other points mentioned in the Tender document other than the above Corrigendum will remain the same.
